

Ethan Campbell

Junior Java Developer (Spring Boot) Columbus, OH | (555) 456-7890 | ethan.campbell@email.com | github.com/ecampbell-java

Professional Summary

Motivated and detail-driven Junior Software Engineer specializing in backend systems engineering within the Java ecosystem. Solid fundamental understanding of object-oriented designs, relational database querying, and RESTful web development using Spring Boot and Hibernate. Eager to contribute to high-performance transaction systems.

Technical Stack

- **Languages:** Java 11/17, SQL (PostgreSQL, MySQL), HTML, CSS
- **Frameworks & ORM:** Spring Boot, Spring Data JPA, Hibernate, JUnit, Mockito
- **Tools & Build Systems:** Git, Maven, Gradle, Postman, Docker Fundamentals

Professional Experience

OmniRetail Solutions | Columbus, OH
Junior Backend Developer | February 2025 – Present

- Developed and expanded scalable RESTful API endpoints using Java 17 and Spring Boot to support internal inventory tracking systems.
- Optimized complex data retrieval times by 15% through the configuration of structured indexing and entity mapping corrections within Hibernate.
- Collaborated with senior engineers to implement automated integration tests with JUnit and Mockito, reducing post-release bugs.

Midwest Logistics Corp | Cleveland, OH
Technical Apprentice / Co-op | June 2024 – December 2024

- Assisted in tracking bug fixes and writing internal documentation for a legacy Java 8 supply chain tracking monolith.
- Constructed an internal validation script using Maven and automated simple operational checks inside the delivery pipeline.
